

Combining Images

Complete the following Pyret expression to produce this final image:

```
overlay(1  
  overlay(2  
    overlay(3  
      overlay(4star(550, "solid", "white"),5  
        circle(645, "solid", "darkblue"),6 4  
        circle(760, "solid", "darkred"),7 3  
      )  
    )  
  )  
)
```

Look closely at your closing parentheses: how many do you need? Mark each parenthesis you added with the number of the opening parenthesis to which it corresponds.
