

Combining Images

Complete the following Pyret expression to produce this final image:

```
overlay(1  
  _____(2"123 Fake Street", 45, "white"),2  
  overlay(3  
    overlay(4  
      _____(5300, 100, "solid", "forest-green"),5  
      _____(6310, 110, "solid", "white"),6 4  
      _____(7312, 112, "outline", "black" _____)
```

Look closely at your closing parentheses: how many do you need? Mark each parenthesis you added with the number of the opening parenthesis to which it corresponds.
